1	This course has helped me to understand the many different ways students learn. Technology can provide excitement and enthusiasm in students, and is a helpful tool when used correctly.	12/16/2013 8:56 PM
2	I feel more comfortable integrating technology in my classroom on a daily basis and know how to do it efficiently and effectively.	12/13/2013 3:37 PM
3	I will focus more on targeted implementation including technology in the lessons that I teach. In addition, the CEP 800 course has broadened my perspectives as to the opportunities for technological integration and the successful strategies for implementing it.	12/7/2013 4:28 PM
4	The only suggestion is to make Unit 5 an extra week and Unit 6 a week less. I do understand the time constraints for implementing our lessons plans and then reflecting, but felt unit 5 was a bit rushed.	12/6/2013 5:22 PM

Q8 In what ways, if at all, could the course design be improved, in your view?

1	More work with other students	12/9/2013 9:35 PM
2	I enjoyed the course very much and the professor and TA direction and participation were super. On a few occasions with a few of the video links (especially in Module 6.3 section) I could not get them to work after repetitive attempts. This also happened randomly throughout the course, but most of the time after a few attempts I overcame it and could view it. Possibly providing more instruction as to how best to access the video links would be helpful and time efficient.	12/7/2013 4:28 PM
3	I honestly can't think of one, but keep Danah as instructor - she was awesome!!	12/6/2013 5:22 PM

4	The CEP 800 was a well thought-out and planned course. Especially I appreciated the technological challenges and encouragement from Dr. Henriksen. Both she and Liz were always informative and prompt in responding to questions, which was very appreciated. The materials both reading and video links were very appropriate and educationally beneficial. Only a few times did video links not work, but after many attempts usually that was overcome. I especially appreciated the detailed feedback and insight that Dr. Henriksen provided for assignments. This was appreciated as a student for direction and future implementation of her suggestions, as well as gaining the feeling of really interacting and communicating with Dr. Henriksen. Overall, this was an excellent course and the teaching professionalism from Dr. Henriksen was greatly appreciated!	12/7/2013 4:28 PM
