1	This course provided an immense amount of professional development, which I will use within my career as an educator and one day as an administrator.
2	The readings, activities, and discussions in this course all contributed to my current and future professional development. I had very little background on the subject of educational systems and systems change, so this course provided a great foundation for me in terms of relevant knowledge.
3	I thoroughly enjoyed this course and instructor.
4	Great course with much to offer.
5	A very relevant and engaging course.

1	This was a difficult course. I would say as a stand alone course it would have been fine, however, working 2 classes at an extreme pace, with an abbreviated schedule, made it difficult.
2	This course definitely stretched my critical thinking. There were a few required articles that were challenging to read; not only did I have to gather the main message (there were often terms and words that were unfamiliar to me- my vocabulary certainly expanded!), but I had to discern its relevance to the course and to the program as a whole.
3	I though it was a lot of work for a 7 1/2 week course when we are all working full time.
4	I could have benefited from examples.
5	Course was as difficult as I thought it would be. A good introduction to the Ed.D. program and its expectations
6	Challenging for me but VERY interesting! Lots of instructor and peer support made it possible.
7	Appropriate but required members to think hard and get into some difficult concepts.

1	It took me a few weeks to discover how the work I was putting into each discussion and assignment was relevant to the overall goals of this program, but now that I've reached the end of the course I am confident that the work I put in is worth what I learned.

1	So supportive and helpful.
2	I really appreciated the sincerity that came through the videos that she sent to us. I appreciated her asking us to call, email, Skype anytime! It has a calming feeling to it when you are able to talk to your instructor, even via email.
3	Dr. Henrisksen was always very helpful and regularly encouraged us to reach out to her whenever we had questions. She always made herself available, which was really helpful in a fully online course.
4	Danah was incredibly strong at encouraging me and communicating with me. All assignments were met with thoughtful feedback that informed the next lesson. Truly feel this was the best online course I have taken because of Danah.

1	Several well developed group projects.
2	I would provide more of an orientation to group work before expecting it to be implemented. Not everyone knew how to use Google docs so some sort of orientation to it would be helpful. I would allow for 2 weeks on the first group assignment to allow people to get coordinated.
3	Her modules allowed us to work together and to create assignments that were asked of us.

1	The instructor was always quick to grade our assignments. The more important aspect to Dr. Henriksen, was when she would send an email to check up on us individually. Or to ask if everything is ok as she didn't see an assignment, etc. This personal touch (for a school the size of ASU), is what ASU needs to have within their instructors. This was definitely a model that should be instilled in all teachers at ASU.
2	Overall, Dr. Henrisksen gave timely feedback. It would have been nice to receive it a little more quickly, but I understand that there were a number of students in our cohort and that she was providing meaningful feedback to each of us. That takes time.
3	Lots of feedback and very thoughtful detailed feedback.
4	Incredible level of feedback for all assignments, not just major assignments. Feedback was useful, thought provoking and encouraged additional engagement.

1	When we received feedback, it was great! It would have been nice to receive feedback on every assignment, but I understand that this is a doctoral program and that feedback is not always warranted.
2	This is some of the best, most useful and specific feedback I have ever received.
3	Quick, useful feedback was always given to us as students. The rubrics that were in place by the instructor were also useful.
4	Lots of feedback and very thoughtful detailed feedback.
5	As stated above

1	This is not unique to this class - but there really should have been an orientation to Blackboard. Someone needs to work on the instructional design as it should not take 5-7 clicks to get into the discussion area. The design is very inefficient. The side to side scrolling is unheard of!
2	Thank you Danah. You were truly a memorable professor. I hope our paths cross again soon.
3	Overall, Dr. Henriksen was wonderful. The lessons I learned in this course provided a sound foundation for future work; I would recommend this instructor and course to every beginning EdD student!
4	I enjoyed this class and have learned a lot, however, the information in Blackboard was often confusing. There would be three or more places a single assignment was housed in one module making it difficult sometimes to make sure you were getting all the pieces of the assignment completed.
5	Dr. Henriksen is an excellent professor and I have really enjoyed her class.
6	Dr. Henriksen, is a great instructor. She is attentive to her students even when the course is offered online. I still felt that personal touch. The comment that I would like to make about the class is that at the end, if we would have had more time to work on the PoP paper and not have to add the systems change paper at the end this would have been helpful with the short time that we were given to work this semester. In addition, if we still had to have all the same work completed, have one dead week so we can work solely on the PoP and the Systems change, and not worry about other assignments.
7	Dr. Henriksen was always warm and inviting. She encouraged me through her comments, posts, and email messages. She always took the time to help me understand my assignments. This class was quite challenging due to the short time frame, but I feel it was worth the effort I put into it. I felt the course was well designed.
8	Dr. Henriksen is an outstanding instructor. I really appreciated working with her, and receiving her guidance and feedback throughout this semester.
9	As one of the first classes taken for the Ed.D. program, I gained a strong connection to the program, course material, and also with the professor. This class was one of the more interesting classes I have taken throughout my years as a Sun Devil.
